529 Plans offered by other states may offer tax or other benefits to taxpayers or residents of those states that are not available with regard to TNStars. Taxpayers or residents of other states should consider such state tax treatment and other benefits, if any, before making an investment decision.

The performance data represents past performance and, as such, current performance may be lower or higher. Past performance is not indicative and is no guarantee of future performance. The principal value of your TNStars Account and the investment return may fluctuate, and the Units of Interest, when redeemed, may be worth more or less than the amount you contributed.

The performance data for Investment Options that received a Subsidy credit during the applicable period is higher than it would have been without the related Subsidy for the fiscal year ending June 30, 2016. The Board, at its discretion, may eliminate, reduce or reallocate the Subsidy for one or more Investment Options in the future, which could result in increased expenses for the related Investment Option and affect future total returns.

The overall performance of an Account may vary based on overall allocation to Investment Options chosen by the Account Owner. Additionally, because in an Age-Based Strategy, the Program will automatically transfer from one Age-Based Investment Option to the next, overtime, based on the Beneficiary's age, the Account may be invested in more than one Age-Based Investment Option during the performance reporting period.
